

A strong Partnership

MTS and leading manufacturers of hydraulic cylinders combine their strengths in the worldwide *MTS Integration Partner Program*. Manufacturers of mobile machines benefit from the long-term experience in sensor integration.

- Intelligent cylinders with integrated Temposonics® sensors
- Cost optimized sensor installation
- Complete sensor-cylinder unit from one source
- High quality and reliability
- Service and application support

Oleodinamica Panni s.r.l.

The Measurable Difference

Intelligent Position Measurement for
Agricultural Machines

Temposonics® **MH Agri**

MTS
SENSORS

NEW!

***Versatile Applications in
Agricultural Machines***

Sensors used for

- Cylinders for Autosteering in Tractors and Combines
- Cabin Suspension for Tractors and Harvesters
- Cut Height Control for Harvester Heads
- Cabin Height and Boom Control for Sprayers
- many more Applications

***Advancements in Vehicle Performance
due to Innovative Sensor Technology***

***Value optimized for high volume in
agricultural machine applications***

Performance

- Electrical Stroke Length up to 1000 mm
- Pressure Rod 10 mm Diameter
- Steel Housing with Pressure Rating up to 350bar (5000psi)
- Optional MTS Proprietary M12 Connector System (IP69k rated)
- Operating Voltage 12 Volts
- Voltage Output
